

LTIN20 2.0 Metre Heavy Duty Tin Roof Mast

Data Sheet 121205

Main Features

- Robust mast designed for licenced microwave antennas where minimal movement is required
- Designed for tin roofs
- Hot-dipped, galvanized members with stainless steel hardware
- Two-axis mast feet to adapt to any roof angle
- Available with options of 2-4 support arms
- Designed & manufactured in Australia
- 24-month warranty

Dimensions

	LTIN20
Main Pole Diameter	76mm
Main Pole Height	2.0Metres
Support Arm Size	30mm x 30mm
Support Arm Length	2.5 Metres
Weight	28Kg

Installation Notes

- Feet should be positioned along roof supports. Silicone should be used between the feet and roof to prevent metal-metal contact.
- Feet are typically tek-screwed through into the roof supports. For added security they can be bolted.
- Pole clamps can be moved on the pole to allow best placement of the feet.
- Support arms can be shortened if required by re-drilling the single hole for the foot.
